Career Objective

• As a current engineering student at Al-Azhar University – Gaza, I am eager to explore the field of Mechatronics and develop a strong foundation in both theoretical knowledge and practical skills. I am seeking opportunities such as internships, technical workshops, or academic projects that will allow me to grow, gain experience, and discover my passion within the engineering world. My long-term goal is to contribute to innovative, real-world solutions through interdisciplinary engineering**.**

Education

• Completed preparatory education at Salah Al-Din School in West Gaza with an average of 98.8%, receiving multiple academic and social excellence certificates.
• Continued secondary education at Gaza Al-Azhari Institute, earning several academic excellence awards and graduating with an average of 83%.
• Currently pursuing a Bachelor's degree in Engineering at Al-Azhar University – Gaza.

Skills

• Ability to create simple drawing and basic graphic designs
• Java programming – Good
• C programming – Good
• Strong understanding of electronics
• Logical thinking and problem-solving skills

Languages

• Arabic: Native
• English: Upper-Intermediate

Projects

• Line Following Robot – Designed and programmed a robot using Arduino.
• Smart Home System – Developed a basic automation model using sensors.

Hobbies & Interests

• Reading tech blogs
• Learning new programming languages
• Building small electronic circuits
